

SYDNEY BUS ROUTES

Renumbering of Sydney private bus routes from the 1925 number system to the Sydney Region Route Number System 1981 – 2004

A work in progress. Corrections and comments welcome – robkit.henderson@bigpond.com

This is a list of the renumbering of Sydney private bus routes from the older 1925 system to the newer, geographically-based Sydney Region Route Number System between 1981 and 2004. The list shows only details of each route as at the date of renumbering. Further details of each route before and after renumbering can be found in the “Route Histories” pages on this site.

Some background to the renumbering is included in the page entitled “The Development of Bus Route Numbers in Sydney from 1925 to the Present”.

For each route or group of routes, the route/s prior to renumbering are shown above the broken line, and the route/s following the renumbering below the broken line.
