

# SYDNEY BUS ROUTES

Brief histories from 1925 to the present of the routes and operators of private bus services in the metropolitan area of Sydney, NSW, Australia

## Routes & Operators in the second half of 1925

A work in progress. Corrections and comments welcome – [robkit.henderson@bigpond.com](mailto:robkit.henderson@bigpond.com)

This list shows private bus routes and their operators in the second half of 1925, which approximately corresponds to the start of the 1925 route number system in November of that year. The number of private bus routes in 1925 was probably at its maximum of any time between the two World Wars. The list has three sources:

- (i) The Government Gazette of 13 November 1925
- (ii) Operators quoted by Mr EJ Doran in his 1925 report about competition between private buses and trams/trains in Sydney.
- (iii) The 1925 issue of “Complete Time Table of Metropolitan Motor Bus Services”, published in September 1925 by Motor Bus Advertising Co of Sydney.

The routes listed in these three documents correspond to a considerable degree. However, the operators of some routes in the Government Gazette are not mentioned in the Doran Report. In addition, there are a few discrepancies between the Government Gazette and the 1925 “Complete” timetable. The discrepancies are possibly explained by the lists being compiled by different authors at slightly differing dates in 1925. A minor difficulty is that route numbers are not shown in either the “Complete” timetable or the Doran Report.

### Contents

- Part A:** Routes listed in the Government Gazette of 13 November 1925, together with Operators listed in the Doran Report;
- Part B:** Additional routes listed in the 1925 “Complete” timetable, which do not appear in the Government Gazette of 13 November 1925.
- Part C:** Known operators during the second half of 1925.

Part A of the list demonstrates the apparent method of allocating route numbers at this time in generally alphabetical order of the principal non-City (or non-Milsons Point in respect of North Shore routes) destination, with the exception of Routes 1 to 6, and possibly 237 & 239. The precise alphabetical order of routes, especially those with destinations starting with K, could be challenged!
